The BokaKotorska (Bay of Kotor) is the single most impressive feature along the Adriatic Coast and in terms of natural beauty, it is hard to beat anywhere in Europe. Its main town, Kotor, is utterly delightful, with an enticing array of cobble-stoned streets, outdoor cafés, Venetian inspired architecture and exquisite little churches.

In the morning you can wake up along the beautiful Adriatic coast looking out over a fjord, have lunch on the banks of Skadar Lake and enjoy evening walks in the Montenegrin Mountains. Montenegro is a place that you will want to return to again and again. We have developed an itinerary which will see you swim, hike, kayak and raft your way through these beautiful and unspool landscapes.

Suitable for: Families with children aged 8 years and older (this does not preclude families with children younger than 8 but they may not be able to take part in all activities)

Mountain Peak Lovcen is 30 km far away from Kotor. Peak Jezerski Vrh is on the 1657 meters above sea level. From that point you can see half of Montenegro, Adriatic Sea Skadar lake and mountain peaks in the north of the state. There is a mausoleum on the Jezerski Vrh of Petar Petrovic Njegos, famous Montenegrin ruler and poet from 19th century. This monument was built to honor one of Montenegro's most popular rulers who wanted to watch over the whole country after he died. This is a truly jaw dropping area and offers views across all of Montenegro's borders. From here you will drive to a picnic area in the Lovcen National Park for a BBQ lunch, before enjoying a fantastic high ropes course.
